

Children in León often suffer from lack of access to a safe and secure environment where they can study andso NECAT has provided a min-library where they can drop in, read books, do their homework with support from qualified staff. Numerous children from the barrios of Sutiaba, Laborio and Zaragoza have taken advantage of this facility in order to further their studies.

Numerous donations from our patron Manuelita Sacassa and from overseas visitors have enabled us to expand the range of available materials.

Further donations are sought in order to strengthen the work being done and regular visits are made to schools to alert the children to the availability of the facilities.
